

Coatings for The Steel Industry From A Leader in Thermal Spray Technology

Applications Include:

- Hearth Rolls
- Sink Rolls
- Pot Rolls and Bushings
- Down Coiler Segments
- Conductor Rolls
- Tower Rolls
- Scrap Feeder Rolls
- Furnace Rolls
- Wet and Dry Bridle Rolls
- Dancer Rolls
- Billy Rolls
- Looper Rolls
- Metering Rolls
- Tension Rolls
- Deflector Rolls
- Pinch Rolls

Bender US, a world leader in the reconditioning and coating of high-wear industrial components, offers a line of thermal spray coatings engineered specifically to meet the challenges of process rolls in continuous galvanizing lines, continuous annealing lines and cold mill environments. Developed by Tocalo, Japan's leading thermal spray company, Bender's patented coatings preserve process rolls and keep them running longer and more profitably. Bender's 50-plus years of experience have yielded a phenomenal success rate for its customers. And Bender is

ISO 9002 Certified for the highest accountability and quality assurance.

Exclusive U.S. Steel Licensee

DNV

ISO 9002

A Variety of Capabilities:

- HVOF
- Plasma
- Arc
- Flame Spray
- Robotics
- Coating Engineering

Other High Performance Coatings From Bender:

- Thermal Barrier Coatings
- Tungsten Carbide
- Hard Face
- Ceramics
- Hastalloy
- Corrosion and Erosion-Resistant Alloys
- Chromium Carbide for Steam Turbine Blading
- Release Coatings for Converting, Gluing, Paper, Film and Plastic
